

QUOTATION

MIXER MIX MAXI 900 LITERS

- ALL STAINLESS STEEL
- Hooper capacity -900 l
- Two levels of hopper
- Two working shafts with paddles

- Rotation of shafts in both directions
- Front discharge of ready product in 200 l trolley
- Detector for 200 liter metal trolley
- Pneumatic opening of covers
- automatic stopping when cover is open
- loading unit for 200l trolley
- frequency regulation of speed *MITSUBISHI
- minimum working temperature - -1 to -2 degrees

TOUCH SCREEN "MITSUBISHI" :

- Smooth regulation of speed
- Setting of working time
- Possible of making different programs

Technical parameters :

Mixer S900

- | | |
|-----------------------|-------------------------|
| - Voltage / Frequency | 400 V /50 Hz /3 phasses |
| - Installed power | approx. 11,0 kW |
| - Control voltage | 24 V DC |

Loading unit 200l trolleys:

-Installed Power - 0,8 Kw

Machine dimensions in mm. (with column loader):

Width:	2 129,0
Length:	2 189,0
Height:	2 745,0
