QUOTATION

AUTOMATIC ANGLE GRINDER SEYDELMANN AG 160 B

Completely made of special stainless steel

Speeds: 2 of the working worm and 3 of the feeding worm - independent

- Holeplate diameter: 160 mm
- 400 V, 3 фазы, 50 Hz
- 3-phases motor IP 23, approx. 25/37 Kw
- Integrated control board
- Hopper capacity approx. 400 liters
- Coned feeding worm made of special stainless steel, perpendicular to the working worm
- feeding motor approx. 3 kW, 3 speeds, separate turning on
- worm corpuses made of stainless steel
- Cutting set consisting of: 2 knives, 1 kidney plate, plates with hole diameters 4 and 13 mm
- step and legs for increasing of height for moving under the exhausting opening of the bins
- - integrated lifting device, for standard meat bins, left

Machine dimensions in cm:

Width:	275,0
Depth:	170,0
Height:	173,0
Installed power:	approx. 42 kW
Voltage:	380 V, 50 Hz
Machine weight:	1850 kg
